

# Privacy Policy

## XClude App

Effective Date: February 22, 2026

**One in a Billion Apps** ("we", "us", or "our") operates the macOS application **XClude** (the "App"), a menu bar utility available for download via our website or other distribution channels.

We are committed to protecting your privacy. This Privacy Policy explains what information (if any) we collect from users of XClude, how we use it, and the choices you have regarding that information.

### 1. Information We Collect

XClude is designed to run locally on your Mac and does not collect, store, or transmit any personal information.

- **No Personal Data Collected:** We do not collect names, email addresses, IP addresses, device identifiers, location data, photos, files, browsing history, or any other personally identifiable information.
- **No Analytics or Tracking:** The App does not include third-party analytics tools (such as Google Analytics, Firebase, Mixpanel, or similar services), crash reporting services, or advertising SDKs that track user behavior.
- **Local Operation Only:** All functionality occurs entirely on your device. No data is sent to our servers or any third parties.

The App may request macOS system permissions (for example, Accessibility, Screen Recording, or Input Monitoring, depending on its features). These permissions are used solely for the App's core functionality and are managed through macOS Privacy & Security settings. We do not access or store any data granted by these permissions beyond what is necessary for the App to work as described.

### 2. How We Use Information

Since we do not collect any personal information, there is no use of such data for profiling, marketing, sharing, selling, or any other purpose.

### 3. Sharing of Information

We do not collect personal information, so we do not share, sell, rent, or disclose any personal data to third parties.

#### **4. Third-Party Services**

XClude does not integrate with or rely on any third-party services that collect user data. The App has no embedded web views, login systems, cloud features, or external API calls that transmit personal information.

Our website (<https://oneinabillion.net>) may use standard server logs or basic analytics (if any), but these are not linked to your use of the App itself.

#### **5. Children's Privacy**

XClude is not directed to children under the age of 13 (or 16 in some jurisdictions), and we do not knowingly collect personal information from children.

#### **6. Security**

Although we collect no personal data, we follow generally accepted industry standards to protect the App and any incidental non-personal data (such as local preferences or caches stored on your device) from unauthorized access, alteration, disclosure, or destruction.

#### **7. Changes to This Privacy Policy**

We may update this Privacy Policy from time to time. The updated version will be posted on our website at <https://oneinabillion.net> and will reflect a new effective date. We encourage you to review this policy periodically.

#### **8. Contact Us**

If you have any questions about this Privacy Policy or the App, please contact us at:
